

Ritron Liberty Repeater

Industrial plants, schools, retail stores, golf courses, and other "tough-to-cover" applications no longer need to suffer from the range and coverage limitations common to all brands of portable two-way radios. The Liberty repeater provides rock solid communication from one radio to another ...virtually eliminating shadowing, fading, and dead spots.

High standards of engineering and innovation are the reasons why Ritron has been the leader in wireless radio products, and now providing you with more solutions for all your communication needs.

The RLR-460/460-W Repeaters operate on UHF (450-470 MHz) frequencies and features:

Integrated Full Duplex Repeater with Duplexer

Frequency Range: 450-470 MHz (400-430 MHz available soon)

Narrow or Wide Bandwidth Versions Available

2 Watt Output at Antenna Port

Compact Size: 2.125" X 8.0" X 5.75"

100% Duty Cycle

Available in either 25 kHz or 12.5 kHz bandwidth

PC Programmable, require RPT-PCPK 5.0 kit

Built-in CTCSS, DCS, or Custom CTCSS (60-254 Hz) Signaling

12 VDC or 110/220 VAC operation

LED Indicators: Power On and Transmit

Morse Code ID'r, TX TOT, TX Hang Timer

Remote Speaker Microphone RJ-12 Jack for Local TX and RX Control

Features "N" Type Antenna Connector

All Metal Extruded Aluminum Housing

Built-in Mounting Flanges for Easy Installation

1 Year Warranty

Made in the U.S.A.

Includes: integrated full duplex repeater with duplexer and RPS-1A (110 VAC in/12 VDC out @ 1 amp) cube power supply
